The registered office of the Company is located at the office of Conyers Trust Company (Cayman) Limited, with the registered address of Cricket Square, Hutchins Drive, PO Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The Company is an investment holding company. During the period, the Company and its subsidiaries (collectively referred to as the "**Group**") were principally engaged in the operation of elderly residential care homes in Hong Kong.

The Company's shares were listed on the GEM of the Stock Exchange of Hong Kong Limited on 12 July 2017.

2.1 BASIS OF PREPARATION

The interim condensed consolidated financial statements for the six months ended 30 June 2019 have been prepared in accordance with International Accounting Standard ("**IAS**") 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2018.

The interim condensed consolidated financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand (HK$'000) except when otherwise indicated.

2.2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and basis of preparation adopted in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the Group's annual financial statements for the year ended 31 December 2018, except for the adoption of new and revised International Financial Reporting Standards ("**IFRSs**") as noted below.

The Group has adopted the following new and revised IFRSs for the first time for the current period's unaudited condensed consolidated financial statements:

Amendments to IFRS 9	*Prepayment Features with Negative Compensation*
IFRS 16	*Leases*
Amendments to IAS 19	*Plan Amendment, Curtailment or Settlement*
Amendments to IAS 28	*Long-term interests in Associates and Joint Ventures*
IFRIC 23	*Uncertainty over Income Tax Treatments*
Annual Improvements 2015 – 2017 Cycle	Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23

Other than as explained below regarding the impact of IFRS 16 *Leases*, the new and revised standards are not relevant to the preparation of the Group's interim condensed consolidated financial information. The nature and impact of the new and revised IFRSs are described below:

IFRS 16 replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have any financial impact on leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of retained earnings at 1 January 2019, and the comparative information for 2018 was not restated and continues to be reported under IAS 17.

New definition of a lease

Under IFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their stand-alone prices.

As a lessee – Leases previously classified as operating leases

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for land and buildings. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under IFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and short-term leases (elected by class of underlying asset). The Group has elected not to recognise right-of-use assets and lease liabilities for (i) leases of low-value assets; and (ii) leases, that at the commencement date, have a lease term of 12 months or less. Instead, the Group recognises the lease payments associated with those leases as an expense on a straight-line basis over the lease term.

Impacts on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019 and included in interest-bearing bank and other borrowings.

The right-of-use assets were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019. All these assets were assessed for any impairment based on IAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

The Group has used the following elective practical expedients when applying IFRS 16 at 1 January 2019:

- Applied the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application

- Used hindsight in determining the lease term where the contract contains options to extend/terminate the lease

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics

- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application

- Accounted for the leases which the lease term ends within 12 months of the date of initial application in the same way as short-term leases, and included the cost associated with these leases within the disclosure of short-term lease expenses

The impacts arising from the adoption of IFRS 16 as at 1 January 2019 are as follows:

	HK$'000 (unaudited)
Assets	
Increase in right-of-use assets	11,989
Liabilities	
Increase in lease liabilities	11,989

The lease liabilities as at 1 January 2019 reconciled to the operating lease commitments as at 31 December 2018 is as follows:

	HK$'000
	(unaudited)
Operating lease commitments as at 31 December 2018	23,860
Less: Commitments relating to short-term leases	11,241
	12,619
Weighted average incremental borrowing rate as at 1 January 2019	4.5%
Discounted operating lease commitments at 1 January 2019	11,989
Lease liabilities as at 1 January 2019	11,989

Summary of new accounting policies

The accounting policy for leases as disclosed in the annual financial statements for the year ended 31 December 2018 is replaced with the following new accounting policies upon adoption of IFRS 16 from 1 January 2019:

Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of the estimated useful life and the lease term.

Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the insubstance fixed lease payments or a change in assessment to purchase the underlying asset.

Amounts recognised in the interim condensed consolidated statement of financial position and profit or loss and other comprehensive income

The carrying amounts of the Group's right-of-use assets and lease liabilities, and the movement during the period are as follow:

	Right-of-use assets Land and buildings *HK$'000* **(unaudited)**	Lease liabilities *HK$'000* (unaudited)
As at 1 January 2019	**11,989**	11,989

3. OPERATING SEGMENT INFORMATION
